Concentration Requirements

To earn one of the Natural Resources Systems concentrations, students must obtain a minimum of 16 credits in core
and related courses. Students also must achieve a minimum grade point average of 2.33 in each graded course used
to satisfy the requirements. Courses offered for a grade may not be taken pass/fail in satisfaction of concentration
requirements. In unique circumstances or in the event that new relevant courses are added to the curriculum, course
substitution may be permitted following consultation with and approval from the faculty advisor to the respective
concentration. In addition, up to 6 credits from part-time or short-term externships or up to 10 credits from a
residential, semester- or summer-long externship may be substituted for courses toward a concentration following
consultation with and approval from the faculty advisor to the respective concentration. A course taken in fulfillment
of a Natural Resources Systems concentration may be applied to no more than two Natural Resources Systems
concentrations.

Check only those courses you wish to apply toward the Concentration.
The GPA calculated will be based on all courses selected.
